GOOD NEWS FOR HOMEMAKERS

DRY BEANS AN AMERICAN STAPLE

During the cold winter months, dry beans cooked in soups or baked sweet in sweets is the day. This nonessential meat source for Americans during beans in 100-pound sacks as did our forefathers. For, dry beans have remained a staple in many American diets. Average consumption is seven pounds per person annually.

Economy-minded Americans are discovering increased dry bean prices when compared to costs of a year ago. The welcome news stems from the 1974 bean harvest which was up 35 percent over the 1973 harvest. Lower prices at the retail store are the result of this greater production.

Out of the more than 100 varieties of dry beans, most Americans select one or two kinds as favorites. Regardless of the choice, these nature beans are economical sources of protein, carbohydrates, and some vitamins and minerals. A one-pound package will yield approximately 6 one-cup servings. They go even further when combined with meat as in chili and beans.

While dried beans are good protein sources, the protein is not the same quality as protein from animal sources. This lack of quality can be supplemented by including small amounts of a animal protein or by providing other vegetable proteins that supply what is lacking in the beans. Both wheat products and rice are good protein combinations for dry beans.

Beans are a good main dish but other foods are needed to round out the meal. A menu featuring beans might include scalloped potatoes, stewed tomatoes, cheese cornbread, and milk. Animal protein in the form of cheese and milk to drink and in the potatoes are included. Wheat flour protein in the cornbread also complements the protein in the beans.

In the supermarket, dry beans are most frequently offered in one or two pound plastic bags. In the home, they should be stored in the plastic bag or in a container with a tight cover that does not rust and insects. If stored in a cool, dark area, free from excess moisture, dry beans will keep for a year or more.

Dry beans have remained an American staple for many reasons. They taste good, are easy to store, supply nutrients economically, and are simple though somewhat time consuming, to cook.

RECIPE OF THE WEEK
PECAN TARTS

Pastry
1 cup butter
2-3 oz. pkg. cream cheese
2½ cups unsifted flour
¼ tsp. salt

Soften butter and cheese. Blend four ½ at a time. Add salt. Shape into 2 inch roll and chill over night. Next day slice and press into small muffin pans or tart shells.

Filling
1½ cups chopped pecans
2 eggs, slightly beaten
1 cup brown sugar
½ cup light corn syrup
2 tbsps. melted butter
¼ tsp. salt
½ tsp. vanilla

Place few nuts in bottom of pastry shells. Beat eggs with rotary beater. Add sugar gradually to eggs. Add melted butter, salt and vanilla. Pour into unbaked shells. Sprinkle with remaining nuts. Bake at 350° for 25 minutes. Can be frozen.

C. L. Elliott; Music, Gospel Harmonettes; Offering, Mrs. John Henry, Mrs. Annie Harvey and Mrs. Virginia Hicks. The offertory prayer was given by Mrs. Marie Tyler; A memorial tribute was given in honor of the late Mrs. Sarah J. Flowers with a special prayer by Mrs. Bessie Bolden and a solo by the Rev. Mr. Elliott. Remarks were given by Mrs. Lucinda Lewis, president of the club, and also the pastor of the church. Every one enjoyed the good singing, prayers and preaching. It was a high day in Zion.

The regular meeting of the East and West Bound Sunday School Union will be held at the Mount Airy Baptist Church this fifth Sunday at 10 a.m. All schools are urged to take a part.

An overflow crowd of members, relatives and friends attended the regular preaching services at the Zion Baptist Church last Sunday morning at 11 a.m. The Rev. Charles Franklin, pastor of the Fountain Baptist Church of Baltimore, delivered the morning sermon. Beautiful music was rendered by the senior choir. All who attended were inspired by the great message.

A special program was given at 5 p.m. by the Missionaries of the church. The Rev. Wyatt Venable was the guest speaker. The crowd was very good. The message was enjoyed by all.

Regular evening service will be held at the Mount Shiloh Baptist Church this Sunday evening at 7 p.m. The local Junior Choir will render music. All officers, members and friends are cordially invited to attend.

Impressive services were held at the Galilee Baptist Church Sunday morning. The pastor delivered a challenging message.

All officers, members and friends are cordially invited to attend the regular preaching service at the Promise Land Baptist Church this Sunday morning at 11 a.m.

Local churches are reminded of their support to the Red Cross. We trust that each church will make a liberal contribution. A complete list of all churches will be published in this column as soon as the contributions have been reported from each church.

Correction

In the paid "Notice of Registrants Purged" printed in the last edition of the Times-Virginian, the name of Martin, Fred H., Route 1, listed in Rocks Precinct was listed through error.

The name of Fred H. Martin should not have been listed with the names of registrants purged. We regret the error.

HINT:

PAINT REMOVAL

The last time I used a paint remover, I decided to think over every step before I started, and I wrote down each one while I did it. Here they are:

- Remove hardware - Mask any areas to protected - Cover floors with several layers of newspaper - Read directions on lab el - Be generous with remover. A heavy coat gives faster, more thorough penetration - Apply remover only to an area you can clean off quickly. Too large an area causes drying out and hardening of the loosened area - Do not work in direct sunlight - When removing film, scrape in the same direction as the grain - To clean remover from grooves and crevices, use a narrow strip of rag or twine well twisted. Steel wool can also be used wrapped around twine - String wire across old can and use it to clean sludge from brush or knife - Clean wood thoroughly with alcohol type solvent.

After your successful paint removal, see us for a complete selection of American Best Quality Varnishes and Stains.

We think it's time someone gave farmers the credit they deserve.

Over the years, farmers have learned to survive without getting a lot of credit for what they do. In fact, they've managed to get along quite well without it.

But there's one kind of credit they can't do without. And that's financial credit.

The kind that takes care of seasonal operating expenses. Like fertilizer, seed, labor and chemicals.

The kind that helps them meet the constantly rising costs of agri-business. (Like nitrogen, that's gone from 10¢ to 30¢ a pound.) As well as helping them deal with its constantly fluctuating (and sometimes marginal) rewards.

The problem is that with agriculture getting to be a tougher business than ever these days, this kind of credit is getting tougher than ever to find.

For one thing, "crop time credit" is practically gone and probably won't be with us again anytime soon. What's more, not enough banks seem to understand farming, its problems and its promise well enough to take up the slack.

And that's just where Fidelity National Bank can help. You see, we've been taking care of the financial needs of farmers around here for a long time. Providing them with everything from loans (We've been one of the top banks in Virginia for farm loans for years.) to complete money management advice.

And this year, because we realize the problems farmers face, we're more ready than ever to give credit where credit is due.

So if a farm operating loan is what you need, why not stop by any Fidelity office and talk with some people who understand that need? And can do something about it.
